**Student Safety in the Car Park**

When using the Car Park Pick Up area it is important to remember the following road rules:

1. Vehicles must **give way to pedestrians** who are using or about to use the Pedestrian Crossing.

2. Vehicles must **never stop on the Pedestrian Crossing** - this blocks the crossing to potential pedestrians and makes the task of crossing the Pedestrian Crossing more difficult and therefore more dangerous.

3. Drive to **anticipate the unexpected** – **always drive slowly** in our car park area – you never know when a child is going to appear from nowhere in front of your vehicle. After collecting your child, drive away slowly - do not speed towards the gate.

All of these things take a moment longer but this is much better than the alternative of a child being injured.

Regards,

**Mark Badke**
